Notice to Mariners 027.2019

Dated 07.06.2019

Guard Vessel / River Works

Mariners are advised that all Barrier construction work is currently being conducted from land and there are no construction vessels within the river.

“Beyond Zero” will be conducting her duties during both tides per day when high volumes of traffic are expected and only one tide per day on others.

“Beyond Zero” will be monitoring VHF Channel 12 when on duty and this should be used by any passing craft wishing to make contact or in any doubt.

Mariners are reminded that the Guard Vessel is on duty only to offer assistance to traffic passing through the bypass channel and where possible to eliminate two way traffic in this area.

Mariners are also remind that traffic moving with the tide will have priority over those punching the tide.
