NOTICE TO MARINERS 053/2018

Temporary River Closure

Mariners are advised that, subject to prevailing weather conditions, a transfer of equipment between the Flat Top and the Jackup Barges will take place during the afternoon High Water on Thursday 20th September.

The location of the FTB within the channel will prevent safe passage by other craft during the operation and the channel is therefore subject to a **TEMPORARY RIVER CLOSURE**.

All vessels should therefore refrain from passing the work site until such time as the channel is clear again.

Guard vessels will be on station during this operation monitoring VHF Channel 12 and any queries regarding passage through the site can be either directed to them or Boston Port Control on the same channel.
