## **NOTICE TO MARINERS P 010/2020**

### **Early Notification to Fishermen**

Works on scour mat laying continues and at some point towards the end of February the barge will have to move closer to the centre of the river. This will restrict the width of the river to such an extent that the Harbour Authority considers certain berths should be vacated to ensure that a safe navigable width is maintained. The temporary berths involved are numbers 1 to 6. It will be acceptable for single vessels to be berthed on 1,2,3 and 4 and for berths 5 and 6 to be clear of any vessel.

The timing and duration of this will be notified by a Further Notice next week.

This Notice will self-cancel on completion of the channel restriction at which time vessels will be able to return to their berths.
