Notice to Mariners 005.2018

Dated 22.02.2018

Race Bank Windfarm Export Cables

Mariners are advised that the vessel MV Grand Canyon 111, LOA 127.5: Beam 25m: Draught 7.5m, is working within The Wash to carry out remedial works on the shallow buried Export Cables from the Race Bank Wind Farm site towards the landfall site at the entrance of the River Nene. Her draught and size will constrict her passage at the southern end of the route and will not proceed further south than the following position.

KP 21: 52 59.15536N : 000 21.01254E				
-------------------------------------	--	--	--	--

Mariners should be aware that the vessel will be restricted in her ability to manoeuvre and should remain at a safe distance from the vessel.

Guard Vessels are operating in the area and can be contacted for further information if required.
